THE MOLECULAR PATHOLOGY OF PRION DISEASES

Adriano Aguzzi, Ph.D., M.D.
Professor and Director, Institute of
Neuropathology, University of Zurich

When:
Tuesday, December 6, 2022: 2 - 3 PM

UC San Diego
Leichtag Biomedical Research Building,
Room 107

Coffee and snacks provided

The Neurodegenerative Series is hosted by the UC San Diego Shiley-Marcos ADRC Outreach, Recruitment and Engagement Core. Sessions are generally held on the first and third Tuesdays of the month from 9am-10am beginning in September and running through May. Prominent faculty speakers from institutions across the country and abroad present on a wide array of topics related to neurodegenerative disease, primarily Alzheimer's disease. The target audience is the academic community that includes resident and visiting faculty, postdoctoral fellows, and graduate students. Attendees are primarily from the UCSD Department of Neurosciences, but there is significant representation from other UCSD departments as well as affiliated institutes and universities.
