Update on the Management of Parkinson’s Disease

Join us for a free seminar as Irene Litvan, MD, director of the Parkinson and Other Movement Disorders Center at UC San Diego Health, welcomes Brenton Wright, MD, to the program. Dr. Wright will present an overview of the benefits of physical exercise for patients with Parkinson’s disease. He will discuss a variety of recommended exercise regimens and any evidence supporting their effectiveness, as well as the role of physical therapy.

Brenton Wright, MD

Neurologist, UC San Diego Health
Assistant Professor of Neurosciences, UC San Diego School of Medicine

Brenton Wright, MD, is a board-certified neurologist who treats patients with movement disorders, including Parkinson’s disease, other parkinsonian conditions, dystonia, tremor, ataxia, chorea, tics, tardive disorders, and other rare diseases.

Prior to joining UC San Diego Health, Dr. Wright served on the faculty at Washington University School of Medicine in St. Louis. Dr. Wright trained as a fellow in movement disorders at Columbia University Medical Center/New York Presbyterian Hospital, where he also was a neurology resident. He earned his medical degree from the University of Louisville School of Medicine.
